THE MUSIC OF **COLE PORTER** WITHOUT WORDS

The music of Cole Porter has been loved by generations across the globe. As one of the rare composers who also wrote the lyrics and as such his music is often heard as music and lyrics together. As an instrumentalist I have always adored the melodies and harmonies that Cole Porter the musician wrote. This album is a celebration of some of those melodies - without the words.

Every track has been arranged based on the original structure, progressions and musical intent - with a few alterations to suit the playing style of both Glenn Amer and myself.

Recorded at Underwood Studios in Sydney's Blue Mountains the audio experience for the listener is meant to be an intimate one, as if you were popping a bottle of champagne and having Glenn and myself in your living room and serenading you with these melodies.

I genuinely hope you enjoy listening to this album the way we have loved crafting it for you.
